Andre Norton : The Hands of Lyr (Five Senses Series Book 1) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Hands of Lyr (Five Senses Series Book 1):

0 of 0 people found the following review helpful. And again Andre Norton tells a good tale. By genogrl Andre Norton writes another story of good over evil. The world is run by greedy evil men. The Hero and the Heroine go through trials and come out the other side to save the day. Love it! 0 of 0 people found the following review helpful. the writing is excellent and the story compelling. By Sye Keene As always, the writing is excellent and the story compelling. Any Norton is a good read. 1 of 1 people found the following review helpful. Another Witch World book? By Doc The Hands of Lyr seems to be an offshoot of her Witch World series. A young woman escapes from something that is chasing her her companions. She hides in a holy places where the creatures can't find her. An elder women befriends her and teaches her magic. They start on a quest with a reluctant prince that has net been corrupted or accept the evil that has befallen his kingdom to be who, doesn't believe he could be a hero. Needless to say the book is well written and keeps your attention almost all of the time. A very good read!.

Once the magnificent garden of the goddess Lyr, the land called the Ryr lies blackened and desolate, destroyed by an ancient and cunning depravity. It is here that the beautiful child Alnoasha camemdash; to awaken, to learnhellip; and to hone her astonishing ability to divine by touch. Now years have passed, and another has made his way to this terrible ruined place ndash; an embittered high-born youth fleeing the bloodthirsty servants of a false god. And though he mistrusts Alnoasharsquo;s powers, the fugitive Kryn is inexplicably drawn to the reluctant young heroine. For he has been chosen to serve as her sword and champion ndash; to accompany her into the malevolent heart of an all-consuming darkness on a perilous quest for light.

From Publishers Weekly Norton's latest fantasy features a psychic girl who, with the aid of a reluctant young noble, takes on a quest to destroy an evil wizard. Copyright 1995 Reed Business Information, Inc. From Library Journal Norton, one of the first women sf/fantasy writers with the selling clout to match the Asimovs and the Heinleins, expands her impressive oeuvre with this tale of a fledgling priestess on a dying planet. Copyright 1994 Reed Business Information, Inc. From Booklist Norton's latest solo is a quest tale: a young warrior and an equally young priestess must find the hands (or at least the 10 fingers) of Lyr, which is something between an elemental force and an outright god. To do so is the only way to restore life to a wasted land. This is not Norton at her very best; the size of the book compared with the smaller size of the story makes for slow pacing. But the execution is competent enough, and the narrative includes various nice touches that reflect Norton's abiding conviction that men and women are best off going

through the world two by two. Certain to find readers among Norton's large and devout following. Roland Green
